

## **THRIVE Spark**

£61.50 per month + VAT

Join the Thrive networking community and grow your business through trusted connections. Our membership offer is tailored to support entrepreneurs and businesses in meetings, in the Thrive network and beyond. Our friendly groups are the right place to make the connections that work for you.

Benefits include:

**Get in a group** You'll join one of our quality Thrive groups and get the chance to meet up twice a month. There are plenty of options for days and times so that you can fit Thrive into your schedule easily.

**Make your request** - In each meeting, we give our members the opportunity to get specific about the people and businesses they want to be introduced to. Twice a month you get to identify your target customers and ask for the group's help to get you in front of them.

**Step into the spotlight** - As a group member, you'll have the chance to deliver a spotlight talk in your group. This is the opportunity to showcase what you do and give an insight into your business. Engaging the community in this way helps them easily recommend your services to their network.

**Plan to succeed** - Thrive offers a bespoke networking plan to each member. You'll share your marketing goals with us, and we'll find the right places for you to make the contacts that will drive growth. Together we can put you in the right places to meet the right people.

**Get Thrive Connected** - Every month you'll be invited to our two monthly Thrive Connect events. As well as getting to meet members of other groups, you can network with many guests from outside Thrive. It's a fast, fun chance to do some serious networking.

**Keep Thriving online** - Thrive has a dedicated private FB group where members can talk outside the meetings. If you are looking for information, advice or to ask the community to share something, the Thrive community is the place to do it.

Access to all these great benefits costs just [£61 per month plus VAT](#). We look forward to welcoming you to our community.
